INDEX TO VOLUME XXXIII

Authors, Titles and Subjects

Abstracts, 88–91, 181–186, 280–283, 376–380, 465–476, 557–559

Acquiescence
the role of body attitudes and, in epinephrine and placebo effects, 63–84

Adaptation
in young hemophiliacs, psychoendocrine study of, 215-226

Adler R, MacRitchie K, Engel GL, Psychologic processes and ischemic stroke (occlusive cerebrovascular disease). I. Observations on 32 men and 35 strokes, 1–30

Adoption
conception after, an open question, 509–514

Adrenal function
and alcoholism, serum cortisol, 145–158
and alcoholism, catecholamines, 159–180

Adrenal function and alcoholism. I. Serum cortisol, by JH Mendelson et al, 145–158

Adrenal function and alcoholism. II. Catecholamines, by M Ogata et al, 159–180

Adrenaline
and noradrenaline, effect of psychosocial stimulation on the enzymes involves in the biosynthesis and metabolism of, 227–238

Adrenocortical activity
sleep habits and personality, relationship between, 499–508

Aggression
psychologic measures of, and hostility, relation to testosterone production in man, 265–278

Alcoholism
adrenal function and, serum cortisol, 145–158
adrenal function and, catecholamines, 159–180

Alpha-adrenergic receptors in the human lung, by RF Anthracite et al, 481–490

Alpha-methyl-para-tyrosine
changes in primate social behavior after treatment with, 97–114

Amkraut AA, Solomon GF, Kraemer HC, Stress, early experience and adjuvant-induced arthritis in the rat, 203–214

Anorexia Nervosa
in the male, 31–48
death in, 135–144

Anorexia nervosa in the male, by H Bruch, 31–48

Anthracite RF, Vachon L, Knapp PH, Alpha-adrenergic receptors in the human lung, 481–490

Anxiety
sexual arousal and, physiologic differentiation of, 341–352

Arthritis
adjuvant-induced, in the rat, stress, early experience and, 203–214

Arthur RJ, see Rahe RH

Asthma
bronchial, emotional and adrenal reactions to stress in, 323–340

Autonomic responsivity
individual differences in, in the adult rat, neonatal influences, 445–457

Axelrod J, see Henry JP

Basu GK, see Persky H

Behavior
primate, social, changes in, after treatment with alpha-methyl-para-tyrosine, 97–114
illness, prediction of, from measures of life crisis, manifest distress and maladaptive coping, 251–264
and biochemical variables using Envoid and placebo, a double-blind study of symptoms, mood and, the menstrual cycle, 411–428

Behavior modification
in the treatment of obesity, 49–56

Behavior modification in the treatment of obesity, by SB Penick et al, 49–56

Behavior pattern
type A coronary-prone, progress toward validation of a computer-scored test for the, 193–202

Bernick N, Kling A, Borowitz G, Physiologic differentiation of sexual arousal and anxiety, 341–352

Biochemical variables
using Enovid and placebo, a double-blind study of symptoms, mood and behavior and, the menstrual cycle, 411–428

Biosynthesis
and metabolism of noradrenaline and adrenaline, effect of psychosocial stimulation on the enzymes involved in the, 227–238

Blizard DA, Individual differences in autonomic responsivity in the adult rat: neonatal influences, 445–457

Body attitudes
the role of, and acquiescence in epinephrine and placebo effects, 63–84

Book Reviews, 92–96, 187–192, 284–288, 381–384, 477–480, 560–564

Bruch H, Anorexia nervosa in the male, 31–48
Bruch H, Death in anorexia nervosa, 135–144

Carcinoma
  Ehrlich, in BALB/c mice, maternal deprivation and the response to, 458–460
Cardiorespiratory responses
  development and mechanisms of, to maternal deprivation in rat pups, 353–362
Cardiovascular integration
  learned control of, in man, through operant conditioning, 57–62
Catecholamines
  adrenal function and alcoholism, 159-180
Changes in primate social behavior after treatment with alpha-methyl-para-tyrosine, by DE Redmond Jr et al, 97–114
Conception
  after adoption, an open question, 509–514
Conception after adoption: an open question, by FM Mai, 509–514
Contraceptives
  oral, effects of, on affective fluctuations associated with the menstrual cycle, 515–538
Contractions
  ventricular, premature, operant conditioning of heart rate in patients with, 301–322
Croog SH, Shapiro DS, Levine S, Denial among male heart patients: an empirical study, 385–398

Death
  in anorexia nervosa, 135–144
Death in anorexia nervosa, by H Bruch, 135–144
Dekirmenjian H, see Redmond DE Jr
Denial
  among male heart patients, an empirical study, 385–398
Denial among male heart patients: an empirical study, by SH Croog et al, 385–398
Development and mechanisms of cardiorespiratory responses to maternal deprivation in rat pups, by MA Hofer, H Weiner, 353–362
Differences in perception between hypertensive and

Pages 1–96, Jan-Feb; 97–192, March-April; 193–288, May-June; 289–384, July-Aug; 385–480, Sept-Oct; 481–570, Nov-Dec.

XUM

normotensive populations, by JD Sapira et al, 239–250
Double-blind study
of symptoms, mood and behavior, and biochemical variables using Enovid and placebo, the menstrual cycle, 411–428

Effect of psychosocial stimulation on the enzymes involved in the biosynthesis and metabolism of noradrenaline and adrenaline, by JP Henry et al, 227–238
Effects of oral contraceptives on affective fluctuations associated with the menstrual cycle, by KE Paige, 515–538
Emde RN, Harmon RJ, Metcalf D, Koenig KL, Wagonfeld S, Stress and neonatal sleep, 491–498
Emotional and adrenal reactions to stress in bronchial asthma, by AA Mathé, PH Knapp, 323–340
Engel BT, see Weiss T
Engel GL, see Adler R
Enovid
and placebo, biochemical variables using, a double-blind study of symptoms, mood and behavior, the menstrual cycle, 411–428
Enzymes
effect of psychosocial stimulation on the, involved in the biosynthesis and metabolism of noradrenaline and adrenaline, 227–238
Epinephrine
effects, the role of body attitudes and acquiescence in, and placebo, 63–84
Excretion
urine creatinine, variability and volume dependency during sleep deprivation, 539–544
Experience
early, in the rat, stress and adjuvant-induced arthritis, 203–214

Family dynamics
in male transsexualism, 289–300
Family dynamics in male transsexualism, by EL Weitzman et al, 289–300
Fast GJ, Fisher S, The role of body attitudes and acquiescence in epinephrine and placebo effects, 63–84
Filion R, see Penick SB
Fisher S, see Fast GJ
Fluctuations
affective, effects of oral contraceptives on, associated with the menstrual cycle, 515–538
Food regulation
long-term, in the obese and nonobese, 436–444
Fox S, see Penick SB
Fox S, see Stunkard AJ

Gaines KJ, see Schapiro H
Gastric motility
the relationship of, and hunger, a summary of the evidence, 123–134
Gastric secretion
canine, the effect of olfactory deprivation of, sensory deprivation on visceral activity, 429–435
Gay TJA, see Johns MW
Golosow N, see Weitzman EL
Gross CW, see Schapiro H
Gross S, see Mattsson A
Gunderson EKE, see Rahe RH

Hall TW, see Mattsson A
Harmon RJ, see Emde RN
Heart patients
male, denial among, an empirical study, 385–398
Heart rate
operant conditioning of, in patients with premature ventricular contractions, 301–322
Hemophiliacs
young, psychoendocrine study of adaptation in, 215–226
Henry JP, Stephens PM, Axelrod J, Mueller RA, Effect of psychosocial stimulation on the enzymes involved in the biosynthesis and metabolism of noradrenaline and adrenaline, 227–238
Hofer MA, Weiner H, Development and mechanisms of cardiorespiratory responses to maternal deprivation in rat pups, 353–362
Holmes TH, see Wyler AR
Hostility
psychologic measures of, aggression and, relation to testosterone production in man, 265–278
Human lung
alpha-adrenergic receptors in the, 481–490
Hunger
the relationship of gastric motility and, a summary of the evidence, 123–134
Illness
magnitude of life events and seriousness of, 115–122

Individual differences in autonomic responsivity in the adult rat: neonatal influences, by DA Blizard, 445–457
Interaction of personality and treatment conditions associated with success in a smoking control program, by MA Jacobs et al, 545–556
Ischemic stroke
occlusive cerebrovascular disease, psychologic processes and, 1–30

Jacobs MA, see Spilken AZ

Kling A, see Bernick N

Pages 1–96, Jan-Feb; 97–192, March-April; 193–288, May-June; 289–384, July-Aug; 385–480, Sept-Oct; 481–570, Nov-Dec.

Kling A, see Redmond DE Jr
Knapp PH, see Anthracite RF
Knapp PH, see Jacobs MA
Knapp PH, see Mathé AA
Koenig KL, see Emde RN
Kraemer HC, see Amkraut AA

LaBarba RC, White JL, Maternal deprivation and the response to Ehrlich carcinoma in BALB/c mice, 458–460
Learned control of cardiovascular integration in man through operant conditioning, by GE Schwartz et al, 57–62
Levine S, see Croog SH
Life crisis
  measures of, prediction of illness behavior from, manifest distress and maladaptive coping, 251–264
Life events
  magnitude of, and seriousness of illness, 115–122
Long-term food regulation in the obese and nonobese, by OW Wooley, 436–444

Maas JW, see Redmond DE Jr
MacRitchie K, See Adler R
Magnitude of life events and seriousness of illness, by AR Wyler et al, 115–122
Mai FM, Conception after adoption: an open question, 509–514
Majchrowicz E, see Ogata M
Maladaptive coping
  measures of life crisis, manifest distress and, prediction of illness behavior from, 251–264
Male
  anorexia nervosa in the, 31–48
Manifest distress
  and maladaptive coping, prediction of illness behavior from measures of life crisis, 251–264
Masterton JP, see Johns MW
Masuda M, see Wyler AR
Maternal deprivation
  and the response to Ehrlich carcinoma in BALB/c mice, 458–460
Maternal deprivation
  in rat pups, development and mechanisms of cardiorespiratory responses to, 353–362
Maternal deprivation and the response to Ehrlich carcinoma in BALB/c mice, by RC LaBarba, 458–460
Mathé AA, Knapp PH, Emotional and adrenal reactions to stress in bronchial asthma, 323–340

Mello NK, see Mendelson JH
Mello NK, see Ogata M
Mendelson JH, Ogata M, Mello NK, Adrenal function and alcoholism. I. Serum cortisol, 145–158
Mendelson JH, see Ogata M
Menstrual cycle
  affective fluctuations associated with the, effects of oral contraceptives on, 515–538
  a double-blind study of symptoms, mood and behavior, and biochemical variables using Enovid and placebo, 411–428
Menstrual cycle: a double-blind study of symptoms, mood and behavior, and biochemical variables using Enovid and placebo, by S Silbergeld et al, 411–428
Metabolism
  of noradrenaline and adrenaline, effect of psychosocial stimulation on the enzymes involved in the biosynthesis and, 227–238
Metcalf D, see Emde RN
Mice
  BALB/c, maternal deprivation and the response to Ehrlich carcinoma in, 458–460
Mood
  a double-blind study of, symptoms and behavior, and biochemical variables using Enovid and placebo, the menstrual cycle, 411–428
Moriarty R, see Sapira JD
Mueller RA, see Henry JP

Neonatal influences
  in the adult rat, individual differences in autonomic responsivity, 445–457
Noble EP, see Silbergeld S
Nonobese
  and the obese, long-term food regulation in the, 436–444
Noradrenaline
  and adrenaline, effect of psychosocial stimulation on the enzymes involved in the biosynthesis and metabolism of, 227–238
Norman MM, see Jacobs MA

Obese
  and nonobese, long-term food regulation in the, 436–444
Obesity
  behavior modification in the treatment of, 49–56
Occlusive cerebrovascular disease
  psychologic processes and ischemic stroke, 1–30
Ogata M, Mendelson JH, Mello NK, Majchrowicz E, Adrenal function and alcoholism. II. Catecholamines, 159–180
Ogata M, see Mendelson JH
Olfactory deprivation
  of canine gastric secretion, the effect of, sensory deprivation on visceral activity, 429–435
Operant conditioning
  learned control of cardiovascular integration in man through, 57–62
  of heart rate, in patients with premature ventricular contractions, 301–322
Operant conditioning of heart rate in patients with premature ventricular contractions, by T Weiss, BT Engel, 301–322

Paige KE, Effects of oral contraceptives on affective fluctuations associated with the menstrual cycle, 515–538

Pages 1–96, Jan-Feb; 97–192, March-April; 193–288, May-June; 289–384, July-Aug; 385–480, Sept-Oct; 481–570, Nov-Dec.

XUM

Perception
differences in, between hypertensive and normotensive populations, 239–250
Persky H, Smith KD, Basu GK, Relation of psychologic measures of aggression and hostility to testosterone production in man, 265–278
Personality
relationship between sleep habits, adrenocortical activity and, 499–508
and treatment conditions associated with success in a smoking control program, interaction of, 545–556
Physiologic differentiation
of sexual arousal and anxiety, 341–352
Physiologic differentiation of sexual arousal and anxiety, by N Bernick et al, 341–352
Placebo
biochemical variables using Enovid and, a double-blind study of symptoms, mood and behavior and, the menstrual cycle, 411–428
Placebo
effects, the role of body attitudes and acquiescence in epinephrine and, 63–84
Populations
hypertensive and normotensive, differences in perception between, 239–250
Prediction of illness behavior from measures of life crisis, manifest distress and maladaptive coping, by AZ Spilken, MA Jacobs, 251–264
Presidential Address, 363–374
Progress toward validation of a computer-scored test for the type A coronary-prone behavior pattern, by CD Jenkins et al, 193–202
Psychoendocrine study
of adaptation in young hemophiliacs, 215–226
Psychoendocrine study of adaptation in young hemophiliacs, by A Mattsson et al, 215–226
Psychologic correlates
of serum cholesterol in man, a longitudinal study, 339–410
Psychologic correlates of serum cholesterol in man: a longitudinal study, by RH Rahe et al, 399–410
Psychologic measures
of aggression and hostility, relation of, to testosterone production in man, 265–278
Psychologic processes
and ischemic stroke (occlusive cerebrovascular disease), 1–30
Psychologic processes and ischemic stroke (occlusive cerebrovascular disease). I. Observations on 32 men and 35 strokes, by R Adler et al, 1–30

Rahe RH, Rubin RT, Gunderson EKE, Arthur RJ, Psychologic correlates of serum cholesterol in man: a longitudinal study, 399–410
Rat
stress, early experience and adjuvant-induced arthritis in the, 203–214
adult, individual differences in autonomous responsivity in the, neonatal influences, 445–457
Rat pups
development and mechanisms of cardiorespiratory responses to maternal deprivation in, 353–362
Receptors
alpha-adrenergic, in the human lung, 481–490
Redmond DE Jr, Maas JW, Kling A, Dekirmenjian H, Changes in primate social behavior after treatment with alpha-methyl-para-tyrosine, 97–114
Relation of psychologic measures of aggression and hostility to testosterone production in man, by H Persky et al, 265–278
Relationship between sleep habits, adrenocortical activity and personality, by MW Johns et al, 499–508
Relationship of gastric motility and hunger: a summary of the evidence, by AJ Stunkard, S Fox, 123–134
Response to Ehrlich carcinoma in BALB/c mice, maternal deprivation and the, 458–460
Role of body attitudes and acquiescence in epinephrine and placebo effects, by GJ Fast, S Fisher, 63–84
